Re Sewage Lagoon #171.04 in Newfields  
Letter of Deficiency (LOD) Dam #171.04  
Issued on July 19, 2001

Dear Mr. Buxton

The Department of Environmental Services (DES) received a letter dated August 5, 2003 from Mr. Peter Hellfach with an enclosed operation and maintenance plan. This plan has been approved. His letter also stated that the northeast embankment would be cleared of brush. As mentioned during my last site visit with you, the southeast embankment appears to be in excellent condition and the Dam Bureau has no issues with the bushes remaining on the embankment.

Based on a file review and receipt of your approved operation and maintenance plan on August 11, 2003, the Department of Environmental Services has determined that the referenced LOD is considered complete and will be closed. Enclosed is a copy for your reference. Please have the brush cleared as stated in Mr. Hellfach's letter.

The next dam inspection for these lagoons is scheduled for the 2005 season. If you have any questions or comments, please contact me at 603-271-3406 or write to the Water Division at 29 Hazen Drive, P.O. Box 95, Concord, NH 03302-0095.

Sincerely,

**COPY**

Amy C. Clark, P.E.  
Dam Safety Engineer
